Welcome to Your Source for Canadian Code Compliant Tactile Solutions

Make use of our extensive knowledge of code compliance to provide you with accessibility solutions that meet all current federal and provincial standards.

The very comprehensive offering of the products in the sidebar meet the most rigorous test requirements and comply with AODA, CSA, ISO, FADS and IFC standards to ensure you achieve the highest compliance in your projects.

The featured brands for tactile walking surface indicators range from cast iron and stainless steel to various engineered polymers and an extensive range of photoluminescent (PLM) exit signs, stair nosing's and exit path marking.

Click on the applications to find the brands that offer the best solution for your project.

If you need assistance, please contact us or click on request quote and we will be happy to assist you to find the best and cost-effective solution for your project.
