Tactile for inside

From: \$12.40 Per sqft

The municipal and federal legislation mandates the installation of Tactile Walking Surface Indicators (TWSI), attention domes and wayfinding bars for the inside of any building. Our Code Compliant Tactile Solutions come in various sizes for easy installation in different indoor spots. The inside solutions come in a range of materials from polymer, rubber, porcelain or stainless steel to match the floor used. You can also choose between a Tile solution and Tactile Solutions using only single domes
