## Surface Applied Tile

From: \$18.09 Per sqft

Access Tile Surface Applied tiles are the ultimate solution in Tactile Walking Surface Indicators (TWSI). The Surface Applied Tiles (retrofit tile) are easy to handle and cut allowing for adjustments due to unforeseen site conditions and can be installed on any existing cured concrete surface where tactile detectable warning is required. The Access Tile Surface Applied truncated attention domes are especially useful for individuals with visual impairment warning pedestrians when they have reached

### Attention Domes

Access Tile Surface Applied Domes are the industry leader in affordable detectable warning tiles perfect for any retrofit job. The tactile walking surface indicators (TWSI) are slip resistant, corrosion resistant, abrasion resistance ensuring all truncated domes are durable against wear and tear maximizing the

### Wayfinding Bars

Access Tiles Surface Applied Directional Wayfinding Tiles (Directional Bar Tiles) are specifically designed to work in unison with truncated attention dome tiles. These Canadian accessibility code compliant wayfinding bars are designed to lead the public between spaces and follow the desired path safely. These (TWSI)
