Tactile by Material

From: \$12.40 Per sqft

Canadian Accessibility legislation mandates the installation of tactile solutions at potentially dangerous locations and as path leading indicators for people with vision loss. Our Code Compliant Tactile Solutions can be easily installed in a variety of locations where needed, by choosing the right material for inside or outside surfaces. For outside surfaces we offer cast-iron or polymer solutions and for the interiors there are polymer, rubber, porcelain, stainless steel, aluminum and brass solutions
